Money Talks event was an advanced skills workshop organized in collaboration with Halcom. The theme of the workshop was gamification in mobile banking. As the name suggests it was a very interesting yet difficult topic to cover in just one week. The people at halcom helped us understand the different topics a lot and taught us several tricks of the trade.

The organizers and members of Lc Ljubljana were the coolest people I have ever met. They were so friendly and helping that I didn't realized that I was meeting them for the first time. I arrived a day ahead of my schedule yet a member took care of my accommodation at her place open heartedly. The international dinner was by far one of the best nights of the whole event. We got to taste food from different countries specially the Balkans. Throughout the event I noticed that people of Balkans are extremely friendly, PARTY loving :D and like to keep people together. I am really impressed and looking forward to attend some event held next time in some Balkan country.

Throughout the event the food was awesome, I preferred vegetarian and the Eestecers were always there for my rescue :d , we were always on time due to proper transportation arrangements made by the LC.

It was only my last day in Slovenia when I realized that it's time to leave all the lovely friends that I have made. After reaching Kaiserslautern I had around 30 friend requests on Facebook and it was so nice to see that people really like to keep link. The days in Ljubljana were definitely one of the best days of my life.

The Eestec Lc Ljubljana did a fantastic job in arranging such a fantastic and fun loving event I would like to rate the event 95/100.
